Trash Manager For Magento 2
User Guide

Table of Contents

Overview

TrashManager extension for Magento 2 helps store owner to revert products and categories deleted accidentally or intentionally. It is a very handy tool for a Magento eCommerce site owner to protect catalog data. TrashManager provides the option to revert the catalog/product delete action.

It certainly happens that store owners want to delete a few products, but accidentally removes all products from the catalog. Now there is no option, other than either restore the database from backup which leads lost of recent data or import products again which requires a lot of effort to build entire catalog again. TrashManager provides the option to undo actions of product(s)/category(s) deletion and the store owner can restore catalog in about a few minutes. TrashManager also helps to know who was the user attempted to delete category/product.

Main Features

- Keeps all information including media about deleted products & categories.

- Can restore a single product/category or in mass.

- Can remove data from trash or can make trash empty.

- Consistent data restoration.

- Can enable/disable trashmanager at any point of time.

- Supports all product types in Magento.

- Can enable automatic trash clear after x days.

Reasons to choose Zestard's Trash Manager ?

Easy to configure & use	Can restore single product/category or in mass	Can remove data from trash or can make trash empty
Consistent data restoration	Support all product type	Can clear trash after "X" days
Flexible settings	Can be used as Recycle Bin	Can enable/disable at any time

Installation Guide

Once you have purchased & downloaded our extension follow the below steps to install the extension. The easiest way to install a Magento 2 extension is by using SFTP or FTP. To do this, first, download our Trash Manager module and follow the below steps.

In short, for Professionals or Techie Person

1. Unzip the extension.

2. Login to your root directory via FTP or SFTP.

3. Go to your remote directory app/code/

4. Create directory Zestardtech and under that create subdirectory **Trashmanager**.

5. Now upload all the unzipped code into the **Trashmanager** directory.

6. Then open your SSH or Terminal.

7. Go to your root directory and RUN below 5 commands step by step:

   - php -f bin/magento module:enable Zestardtech_Trashmanager --clear-static-content

   - php bin/magento setup:upgrade

   - php bin/magento setup:di:compile

- php bin/magento setup:static-content:deploy -f

- php bin/magento cache:clean

8. If you didn't get any error during the commands execution process then our extension is successfully installed in your store.

Detailed Installation Instructions

Step 1: Connect to FTP and upload the unzip directory.

- Connect to your site using FTP or SFTP. Go to your remote directory app/code/

- Create directory Zestardtech and under that create subdirectory Trashmanager. Now upload all the unzipped code into this directory.

Step 2: Run Commands

- Open your SSH or Terminal.

- Go to your root directory and RUN below 5 commands step by step:

  ○ php -f bin/magento module:enable Zestardtech_Trashmanager --clear-static-content

  ○ php bin/magento setup:upgrade

  ○ php bin/magento setup:di:compile

  ○ php bin/magento setup:static-content:deploy -f

  ○ php bin/magento cache:clean

- If you didn't get any error during the commands execution process then our extension is successfully installed in your store.

Step 3: To confirm Installation and activation.

- To complete the installation you need to log out of your Magento Admin and login back.

- Open your SSH or Terminal and run this command **php bin/magento module:status Zestardtech_Trashmanager** and if you get Output as **Module is enabled** then our extension is installed properly in your store.

To Note: If you face any error during this process then please either share the screenshots or share credentials of your store at our email id **support@zestard.com** and will help you install the extension properly.

User Guide

How to Configure Trash Manager Extension?

After installing the extension just follow the below steps to set up in your store.

1. To access Trash Manager extension configuration, log in to admin panel and go to Store > Configuration > Zestardtech > Trash Manager Configuration.

   - **Enable Module:** Select "Yes" to enable the extension.
   - **Email Product Trash:** Select "Yes" to enable the Product Trash feature.
   - **Email Category Trash:** Select "Yes" to enable the Category Trash feature.
   - **Clear Trash Days:** To clear trash entry from both database as well as media images Enter the number of the days after this trash will be cleared.

Trashmanager Configurations

Module Enable	Yes
